# **1 Introduction**

## **1.1 Humble Beginnings**

This project started out from a YouTube video [1], in which the author exposes her approach to experimenting as a way to expand our own limitations when it comes to learning and work. This deeply inspired me back in December of 2025, so I decided to expand on these themes in 2026 as a way to change my life with structure and meaning, ridding myself form mediocracy as a Software Engineer by learning new skills and all the random and weird technologies and fields I've always felt drawn to during college. For each month, I would

## **1.2 Why this**

# **2 System Components**
